

ACTINIZYME

Gluten-Free Statement

Gluten is a protein that occurs naturally in wheat, rye, barley, and crossbreeds of these grains. Foods that typically contain gluten include breads, cakes, cereals, pastas, and many other foods.

Anagenix's product Actinizyme™ is derived entirely from New Zealand grown kiwifruit and contains ≤ 7.5% of excipients – silica and microcrystalline cellulose.

Anagenix confirms that the product is naturally gluten-free, and no gluten is used or present during the manufacture of the product.

The product therefore meets the requirements for a gluten-free claim under Regulation (EU) No 828/2014 and the US FDA 21 CFR 101.91.
