

Free-From BSE/TSE Statement

New Zealand is free of bovine spongiform encephalopathy (BSE). No cases of BSE have ever been reported or recorded in New Zealand¹.

The World Organization for Animal Health (OIE) recognises New Zealand as having a negligible BSE risk status².

Anagenix Limited confirms that our Braincurrant® product complies with the following statements:

- All fruit (blackcurrants) used in the manufacture of the product are grown, processed and packed within New Zealand.
- The product is not of animal origin and does not contain, make use of, or involve at any point of the manufacturing process, animal products either directly or indirectly through excipients;
- The product is therefore free of bovine spongiform encephalopathy (BSE) and transmissible spongiform encephalopathy (TSE).
