

BRAINCURRANT®

Irradiation & Ethylene Oxide Statement

Braincurrant® contains no irradiated material or products either directly or indirectly through additives.

There are no applications of extreme heat, steam, ionizing radiation, ethylene oxide (ETO), 2-chloroethanol or any other physical sterilant used in the processing of this product.

None of the above treatments or chemicals are used/applied in the blackcurrant supply chain, including during cultivation of the fruit and in the storage or packaging.

Anagenix confirms that the product is compliant with Directives 1999/2/EC and 1999/3/EC.

All food additives used in this product are authorised in the EU and comply with the relevant purity criteria in Commission Regulation (EU) No 231/2012, as amended by Commission Regulation (EU) 2022/1396 regarding ethylene oxide
